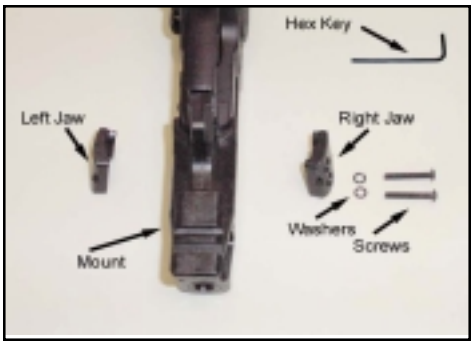
INSTALLATION INSTRUCTIONS FOR ALL SIG PISTOL ADAPTERS

*For use with these fine products manufactured by Insight Technology:

-M3 Tactical Illuminator
-M6 Tactical Laser Illuminator
-LAM-100/150

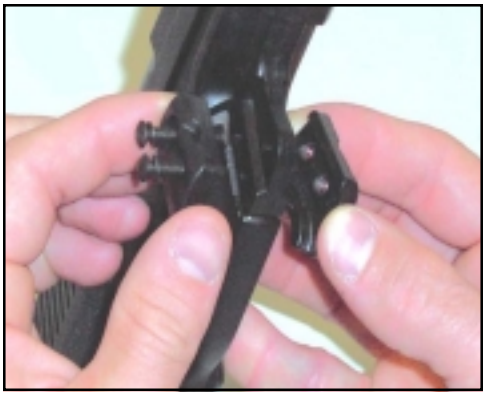
WARNING:
VERIFY THAT THE WEAPON IS CLEAR AND SAFE BEFORE PROCEEDING.

1) Verify that all components of the adapter assembly shown in the picture are present.



2) Remove the screws and the left and right jaws from the adapter assembly using the included 5/64 hex key.

3) Push mount onto frame, and ensure that it is tight to the weapon frame and trigger guard by squeezing together.



4) Holding mount to frame, place the right jaw over the trigger guard and adapter.

5) Insert washers and screws into through-holes on the right jaw.

6) Install the left jaw on the opposite side of the trigger guard.

7) Tighten screws with enclosed hex key until mount is fully secured to the frame.

8) To remove adapter, repeat steps 4-7 in reverse order.
